Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: SB951

As a patient who has experience with what happens when these types of corporations take over a physician's practice I am in support of this bill. These corporate takeovers make it more difficult for doctors to practice in a way that is best for their patients. It also is more costly and dangerous for patients. This revision of our current OCPM helps ensures physician's can maintain autonomy and patients get high quality care.
