

Submitter: Chace Miller

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

I strongly oppose SB1098, as it constitutes an obvious overstep of authority by the state to remove the free peoples' ability to keep schools accountable to the people.

If parents do not want counter-productive, non-educational, malicious, explicit and in any other realm illegal material from being shown or taught to their children, then more effort should be put into making their voices more effective, not ineffective as SB1098 so clearly would render them.

This measure is a waste of the precious time and money of the tax payer and contradicts the values of our country and the people, as noted by the recent election results.

Please maintain the freedoms and voices of the people rather than intentionally remove them as sponsors of this ridiculous measure are doing.
