Thank you for giving me the opportunity to share why I oppose SB947. I have given testimony on 3075, 3076, 243 and now this special interest bill. All of these bills are combined to crush the average Oregonian and will have zero effect on crime and suicide and everyone of you know it and I really don't think you care other than to appease the out of state special interest groups that own you. During the work session on 3075 and 3076 Senator Manixx said that he had been in office since 1989 and in every session the Democrats have put forth a gun bill and really wanted to know what the end game is for the Democrats , Senator Prozanski said after he dropped 243 without a cost analysis that he didn't care if it had a cost analysis the Democrats outnumber the Republicans and 243 will get voted down party lines and we will pass it regardless. I also see the lack of confidence in all of these gun bills or they wouldn't be required to only be challenged in Marion county. It's truly a sad thing that we have more people and businesses leaving Oregon than people and businesses moving in and many of you are guilty of causing this. The state of Oregon is in a major financial mess and you people can't even focus on just paying for the basics let alone gun bills that will cost this states taxpayers unnecessary burdens. You folks took a oath to protect and defend the Constitution of America and the state of Oregon and not the Moms demand action, Giffords foundation or the head of Bloomberg foundation.
