

Submitter: Mary Osborne

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3940

This is the dumbest bill I have heard of a very, very long time. Why would you want to clutter the beaches, natural environment with bottles and cans of irresponsible citizens the Bottle bill helps keep these things clean because the citizens instead of throwing them in the bushes or leave them on the beach, they can return them for money, which is most important to normal citizen. There's other ways to fund the wild fires, Bottle bill is not one of them, how about cutting the pay check in half of legislatures and senators, apply that savings each month to the wildfire fund, should accumulate a tidy sum during the winter and spring months each year, cutting the bottle bill really shows the intelligence of these elected officials that are way over paid especially now, we the taxpayers are financially supporting stupidity.
