

Submitter: Laurie Woodard

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3940

I believe this HB 3940 was submitted by Representative Levy Lively? I don't understand the "ins and outs" of this bill, all I know is that a program that keeps litter off our roads, out of all of our waterways is by far cheaper to maintain than to have to deal with more GARBAGE that is time consuming to clean up and much more cost ineffective than NOT having a "bottle drop" program.

I would also like to say that there is enough lunacy in the government nationwide without adding more grief and compounding Oregon's problems.

Sincerely,

Laurie Woodard

A Proud Oregonian Resident
