

Submitter: Stacey Holeman

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

I was a teacher for 34 for years and, before that, a student for 22 years. I'm an ESD board member and chair a scholarship organization. Education is important to me and this bill will help support our educational systems, our teaching professionals, and our students. This bill will defend our First Amendment rights, honor the expertise and experience of our educators, and provide students with the culturally responsive and racially inclusive education they deserve and that we need them to have - they are our future leaders.

Please support this important bill!
