Measure, Appointment or Topic: HB3824

As a physical therapist, I would like to add support for the adoption of this bill, which is a step in the right direction for the profession of Physical Therapy in our state. Specifically, and most importantly, in the outpatient setting we can expect to see improvements in patient care and a reduction in barriers to treatment. Dry needling is a well known and researched treatment practiced in almost every other state, and would significantly add to the tool set we have to effectively treat patients.

Sincerely,
Ryan Wiser, PT, DPT
