Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: HB3932

Please support HB 3932.

HB 3932 is a common sense solution to water quality problems in Oregon. The benefits will be wide-ranging and substantial, and the downsides are negligible. Please protect our state animal, the noble beaver, so that they can help us to restore our most heavily-degraded public waterways. Thank you for your consideration.
