Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or
Topic: HB3932

Hello,

I urge you to enact legislation to protect the environment that sustain beavers. I have witnessed restored beaver habitat, where they were once eradicated because the property owners contended that it compromised the integrity of the landscape. The opposite supposition is true. Beavers enhance the vitality of a given landscape by increasing the presence of water, attracting avian and mammal populations and the critical endemic grasses that comprise a healthy ecosystem.

Sincerely,
Alex Steckel
