I support SB485, specifically with the -2 amendments.

I feel that continuity of land ownership in forestry is very important for good forest stewardship. Owners with long-term commitment make investments in their lands that provide many public benefits – wood, wildlife, water, etc. Inheritance taxes force landowners to harvest prematurely, and to sell lands to pay taxes. This interrupts the long term stewardship ethic, often with negative consequences for the lands and the public good. The 2023 bill made it difficult to apply to forestlands. SB485-2 is a good fix.

Thank you for considering my opinion.
