Protect and respect the field of acupuncture. People got to stay in their lane. Folks have student loans, and are vested in these skills. Stop making skilled people fungible wage slaves, you plantation lords! Are you aware America was conceived using a declaration of independence written by a PROVEN pedophile slave rapist? Yes, his name was Thomas Jefferson and he took too many liberties. Therefore, as citizens of an immoral corrupt nation, we must have morals again, and not allow them to Americanize people into slavery and genocide again, and again. Stop your lawyerly rug pulling of diligent contentious people, who are vested and owed. People go to school for years for these things. The government just wants to make you a fungible worker while they genocide Arabs. Support partition!
