

Submitter: Mukhdip Singh
On Behalf Of: Physicians
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: HB3824

I support HB 3824, which will allow physical therapists to provide increased scope of care to Oregonians. Physical therapists have 3 years of doctorate training specialized in the diagnosis and treatment musculoskeletal conditions. Passing this bill will help them better expedient and provide broader care to their patients. Additionally it will reduce the burden on primary care providers.

Mukhdip Singh, MD
