

Submitter: Shelby Staffenson

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: HB3932

I strongly oppose HB3932. When beaver numbers swell unchecked, they cause extensive damage to agricultural lands, disrupt infrastructure, and threaten the habitats of other wildlife. Trapping them keeps their numbers in check and it has been working just fine for over a century in this state. Please let this bill die. Vote NO on HB3932.
