

Submitter: Ryan Custis

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: HB3932

I oppose this bill as I believe that there is already a sound management plan in place. I believe the current plan already addresses all management objectives and insures that the beaver population is at objective. Any alteration of this plan makes it legislative instead of scientific. Please stick with the science and North America Model of Wildlife Conservation, emotions should play no part in science!

Thanks!

Ryan
