The people of Oregon deserve better than to be denied their 2nd amendment rights while watching crime and drugs and illegals take over our state. The biggest fentanyl bust in history minutes from the capitol and you're working on taking away people's right to protect themselves from just such criminals. Pathetic and ignorant waste of time and opposite of what we really need which is working to protect Oregonians. The crisis is not about guns, it's about lack of common sense and accountability and lawlessness!
