

Submitter: Marixa Fernandez

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

- Chinese Medicine is a whole career that needs training and preparation. Letting people use "dry needles" and acupuncture it is irresponsible because the provider has to understand the illness behind the illness. Putting needles it is not only inserting an object.

-To do acupuncture, there has to be training because you may cause a pneumothorax, harm vessels or muscles, and cause nerve death.
