

Submitter: Duncan Mitchell

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

I'm a physical therapist and have been working in Oregon since 2016. I strongly support this bill, as it expands access to healthcare for Oregon residents. This would reduce barriers for quality care. It would provide additional tools for the physical therapy profession to use in order to improve public health. I particularly feel strongly about dry needling, as I have been on the receiving end and seen it in practice in other states, both with excellent outcomes.
