

Submitter: Brendan Lee

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

Although, drones may be a good tool for law enforcement. The community is left without a voice or choice in this matter.

I oppose this bill, due to invasion of privacy. Only with a legal authority & consent can the law enforcement be allowed

to use drones in a crime scene or search for criminals. I had my privacy invaded through my bedroom window by a drone.

To this day I do not know if it was a housemate, neighbor or law enforcement. There must be regulation & accountability.

Thank you!

Sincerely,  
Brendan Lee
