SB238

Hi House Committee,

I strongly oppose the SB 238 that would allow drones to surveillance. I do not think Oregon police should be allowed to utilize drones without a warrant. Allowing this weakens the rule of law and court oversight. Police have a tendency to abuse the systems in place and I do not think they need access to drones. We are the verge of an authoritarian fascist government and you want to allow drone spying. I cannot think of any reasonable reason to do so.

Vote no on SB 238. Be on the right side of history.

Thanks for your consideration.
