

Submitter: Sheriff Joshua Brown

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3962

Tillamook County, like other scenic and heavily visited counties, is negatively affected by the high volume of tourists that come to our community. Emergency services amongst other infrastructure facilities struggle greatly during the busy summer months. These summer months are even trending towards starting earlier and lasting longer. The 70/30 split is no longer appropriate in a county like Tillamook and others. I urge you to support this bill to help struggling counties better fund crucial public safety and infrastructure due to high tourism.
