Osborn aquatic center is a very important staple to the state of Oregon, not just the city of Corvallis, where it resides. As a swimmer who lives in Salem and drives 45 minutes every day, sometimes twice a day, to use the facility, I can personally tell you just how useful and amazing the facility is. It is one of the only long course (Olympic sized) indoor pools in Oregon and is used for tons of huge, money making meets every year. I love this facility and think that it is vital to the state of Oregon. It also provided swimming lessons for kids who are unable to swim, which is a lifesaving skill for all people. Please save Osborn!
