Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

Dear Joint Subcommittee On Capital Construction,
I strongly support funding for the Chintimini Wildlife Center in Corvallis. We need this facility to improve support for injured wildlife and to help educate the public. Not only is the Center a hospital for animal care, but it teaches both young and old about our natural environment and helps us increase our appreciation for the wildlife community that surrounds us. It is a great asset to the region.
