

Submitter: James Wilcox
On Behalf Of: Personal
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB243

SB 243A is a blatant infringement on citizens 2nd Amendment rights. It is another ill conceived action to disarm law abiding citizens making them more vulnerable to criminals. Given that the State position of being a 'Sanctuary' state it is imperative that citizens be allowed to defend themselves wherever they are since law enforcement has been shackled from enforcing laws already on the books. The recent arrest of a Cartel boss within 20 miles of the Capitol emphasises the need for citizens to be able to defend themselves wherever they are. Burdening law abiding citizens with additional laws will do NOTHING to dissuade criminals.
