Measure, Appointment or Topic: SB243

As a native Oregonian, our 1st amendment rights are being chipped away little by little, year by year, and this bill further chips away at them. What is the purpose of doing this? The criminals don't obey the laws so whatever you dictate out of Salem has no impact on crime. You are only taking away 1st amendment rights of all law abiding citizens, such as myself. I have children and grandchildren in this state and you are taking away their rights, too. Please stop taking away our gun rights!

A person could almost think those in Salem who are for dismantling our gun rights are on the side of the criminals, as they are the only ones who don't lose with all of your tyrannical laws. Certainly these legislative tyrants do not care for what is best for fellow Oregonians. Please stop taking away our gun rights! I say vote NO on SB 243 A.
