RON LEIFESTE

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB243

For once I would like to see you law makers quit stabbing law abiding gun owners in the back and start punishing criminals who are constantly breaking the law. We recognize that the sole reason behind these laws is to disarm American gun owners so you will have total control of the populace as they do in China and other totalitarian countries. STOP this bill from ever becoming law! Act like you really care about Americans and the future of our country.
