

Submitter: Dana Anderson

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research.

The abominable and inhumane treatment of our fellow beings for the purpose of medical experimentation will be a blight on our species' history for all time. What if these animals were your pets? How would you feel about your beloved pet being tortured? Stop all use of animals in testing and research. It's the right thing to do.
