

Submitter: Annika Bisson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

This is a blatant violation of civil rights that will only serve to harm the ability of law abiding citizens to defend themselves against violent crime, and will further weaken the ability of Oregonians to effectively defend against fascist authoritarianism. The fact that these bills are being forced through despite OVERWHELMING popular opposition is blatantly undemocratic, and is a symptom of authoritarianism in itself. I will not be supporting any representative that votes in support of this in upcoming elections - regardless of party affiliation.
