

Submitter: cindy mahoney

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: HB2563

I oppose this measure

The way it is presented appears to discuss the measures the insurance policy writers can evaluate one's risk in the home through various devices, including invasive and private state unconstitutional bills prohibiting looking into credit scores or recently, wildfire maps that were removed.

This measure as read puts homeowners not just inconvenienced but many, without a home. That we know is fully intentional by the state.
