

Submitter: Royce Pierce

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

This bill does nothing to protect women or enhance public safety. I oppose this based on the fact that it targets once again law abiding citizens of Oregon and only equates to redundancy. Laws already exist to address the supposed intent. Couple this with the fact that it is based on unqualified authorities opinions not facts. I would point to the numerous actual LEO's throughout the state who oppose this. These individuals are vetted and documented experts. In contrast authors of this madness have no documentable experience. Once again we feel instead of reason.
