Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

This bill will make it harder for the law abiding citizens to obtain firearms. I have worked in stores that sell firearms and I can say 100% without a question of a doubt. I have never seen a criminal buy a firearm in these establishments. We already have a system that works. Let's not waste resources and time on a matter that will make no difference to criminals. The way criminals come into possession of firearms is by stealing them from law abiding citizens. Look at the news coat of arms was broke into and had a few firearms stolen. I think this speaks for it's self criminals need a more severe punishment.
