

Submitter: Lorreina Guyett

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: HB2900

I'm speaking in support of this house bill, because it is my personal belief that this will help teachers and others who work on education. It feels as though we have stricter requirements for teachers than we do have law enforcement while constantly underfunding education. The first step to successfully supporting our teachers is to end the probation period for experienced teachers.

Thank you
