

Submitter: Sierra Shaver

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB3643

As a youth of Oregon, and someone who lost an important person to suicide, I feel that through honoring this day, we can bring awareness. As a teenager, I can say having your voice heard, understood, and respected is one of the most valuable things. By passing this bill, and creating a day in honor and to raise awareness of the reoccurring issue surrounding youth suicide, Oregon teens will feel heard. No person should have to feel this is there only option, and no family and friend should have to hear the news of the loss of someone in their life. Thank you for taking the time to read this to support the passing of this bill.
