

Submitter: David Wilson

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: HB3971

Dear Chair Bowman and Members of the House Committee on Rules:

Please work to pass HB 3971 to enable the CleanLane to mitigate climate damage from harmful methane gases. I live in Lane County and am eager to support local efforts to stem climate change. The CleanLane project is exactly the kind of effort that I believe should be encouraged, both for the near future that I will inhabit and the long term future I envision for my children and grandchildren. It is the right thing to do. Thank you for your attention and consideration.

David O. Wilson
