I am Neutral on [HB 2175].

[HB 2175] presents a significant conundrum.

If a "pill machine or any other like device (herein Machine)" is used for food supplements, the "Machine" should be permitted.

Such a "Machine" could also be used in the harmless application of making fertilizers for avid gardeners.

There may be other 'harmless' uses of such "Machines."

*** If such a "Machine" is used for nefarious purposes (such as illegal drug purposes), the criminal element should face punishments far more severe than what is contained in [HB 2175].
