OPPOSE. Sick and tired of democrats and others who continue to try to control us by ways of taxation and regulation. We are taxed to death! We are controlled enough...too much! No more taxes and regulations!! We need less so people can afford to live where they want in a home they can afford without being worried that they can't afford insurance due fires and floods or the taxes because they have a well or two or the taxes keep getting raised for no reason. OPPOSE!!
