

Submitter: Charles J Hurliman

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

Hinkle creek and the Trask paired water studies, as well as the 1972 US forest service Siuslaw National forest stream studies, And the bureau of reclamation have many studies on water quality. The existing water rights laws protects water flow. Adding more laws only adds to confusion to the administration of water use.
