

Submitter: janet krebs

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

I oppose SB 1153. All people want clean water. All people need food. WE can have BOTH. I oppose SB 1153. Small Government = more freedom and lower prices on food products which are grown by...WATER. Remember, all people want and need clean water, for personal use and for business use, so additional regulation is not necessary because all people want and need clean water and will take personal responsibility for such. HUMAN HABITAT AND CONSUMPTION IS ALSO IMPORTANT. Don't abuse 'environmental protection actions' to secure further control of water, which is already CHERISHED AND CARED FOR BY UNRESTRICTED, YET CAREFUL USERS. Say, "NO," to more water restrictions. All people need water, want clean water, and already care for water habitat because they consume WATER.
