

Submitter: Karen Banks
On Behalf Of: Self
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB1154

I totally oppose SB 1154. Oregon does not need another bureaucratic commission to study ground water. Those of you who vote or bring in these bills need to remember you are here for "We the People."

This nation was designed to be a Constitutional Republic, not a democracy which equals mob rule.

Vote no on this bill.
