

Submitter: Maxson Sherman

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Enough is enough, Oregon needs to learn to live within its means, every session the Governor and legislators demand more hard earned dollar from hard working Oregonians. The constant demands for more has far out pace the income, especially that of retirees and lower income families. Legislators need to focus on evaluating agencies, especially the Department of Transportation and cut waste. Our family is a hard NO on these increases.
