

Submitter: Nancy Granata
On Behalf Of: ALL OREGON TAX PAYERS
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

Dear Members of the Oregon State Legislature: Please do NOT raise the taxes on gasoline. Most people in our state need to drive their cars to work and the number of people who can afford battery operated cars is very limited. Raising the gas tax ONLY HURTS WORKING PEOPLE who cannot afford \$60,000 EV's. Trying to force people to buy EV's when they cannot afford to do that, is not in the best interest of middle class wage earners. Most people are still struggling at the grocery store! Please don't raise any new taxes!! Thank you, Nancy Granata
