Measure, Appointment or Topic: HB2025

We farm in Nyssa, OR and agriculture is struggling with some of the lowest commodity prices since the 1980's and skyrocketing expenses on the cost of production. This bill would be just one more nail in the coffin for us and you wonder why we want to leave the State of Oregon which continues to burden us with unnecessary taxes and move to Idaho which is an agriculture friendly state! We strongly OPPOSE this bill,
