We fixed income Oregonians are on tight budgets as it is. Unable to take vacations, eat a healthy diet due to the high cost for healthy foods let alone any unexpected costs that pop up like auto repairs.

Now you expect to cut my budget even tighter because you can't manage your budget.

My husband has stage 4 cancer we also have the medical costs.

We are absolutely against any more fee or tax increases.

LEARN TO BUDGET! Time for necessary spending only .
