The gross misconduct and oversight of this committee on HB2025 is egregious! Taking into consideration NO public input or testimonies, having MANY budgetary numbers unavailable until the last few days and expecting Oregonians to just pay MASSIVE more taxes to bail you out due to massive mismanagement is slap in the face to taxpayers and a fully socialistic approach! We WILL NOT stand for this and request this bill be STOPPED before you further cripple the already devastated economic state of many Oregonians! NO MORE TAXES!! Figure out how to work with what you have as ALL of US must do!
