

Submitter: Tamra Burleson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB3390

Either you believe that only legislators have the superior intellect to write ballot titles, or your goal is to obfuscate the real intent of ballot measures for your gain. Either way, we are not buying it. But, you just go ahead and drive another nail in the coffin of the Democrat party. This type of corruption is exactly why Trump won. We are waking up and walking away!
