Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I agree that we need a solution to our roads and our infrastructure. That said, I don't agree with the way this bill goes about doing this. The nation is in crisis, we are in an economic downfall, every dollar we make needs to be stretched farther and father, and adding such significant taxes to nearly all aspects of transportation is going to be crippling to so many. I am not in favor of people going hungry, losing their homes, not being able to live happy and healthy lives in favor of improving our roads. Do we need improved roads and infrastructure? Of course, but not if folks can no longer afford the gas to drive on them. There has to be another way, please find something that doesn't add salt to the already raging economic wound.
