Measure, Appointment or Topic: HB2025

I am vehemently opposed to HB2025. This bill is nothing more than an excuse to waste more monies from taxpayers without results. Especially when more than enough was available to provide the services to the citizens of Oregon but was wasted by mismanagement by the current legislature and those over the last 20 or more years. The real need here is clear and open review of where and why the state funds of Oregon are spent. This is not done so the people of this state have easy , clear access to where and how these taxes are used. This bill will only supply more hardship for citizens of this state and those who visit and will actually cause the loss of income to most Oregonians and will raise expenses , putting them in an even further deficit with their funds. Be responsible to your constituents and DO NOT pass this bill , it's bad for Oregonians and bad for the state.
