

Submitter: Greg Matthews

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To whom it may concern

I am a Oregon small business owner that has been living in Oregon for 44 years and a running a small business for the last 23 years with my father. In the last 6 years this state government has done everything it seems possible to destroy us and another small business owners I know. We are dying and unable to pay our basic cost as it is and this tax increase may very well force us to shutdown. This is a spending problem with ODOT and the people of Oregon are leaving already and we are being taxed out of our homes. Stop this before Oregon actually does become Detroit. I love this state, but will have to leave if there isn't some kind of tax relief. Please stop before it is.to late.

Greg Matthews
