Measure, Appointment or Topic: HB2025

I am writing my strong opposition to HB 2025.

The bill would raise nearly 20 new taxes and fees

Raise gas taxes by 12 cents (52 cents total) per gallon, one of the highest in the nation.

350% increase on car sales taxes

Triple the tax on your paycheck

Make Oregonians pay \$11.7 BILLION in the next decade

The bill does little to hold ODOT accountable for the way they spend the money.

Instead, the cost will sit squarely on the backs of hardworking Oregonians.

Respectfully submitted.
