

Submitter: Stephen Docy

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: HB3402

This bill is a clear push to disregard all the work that went into a transportation package that had been worked on for months to create a compromise that funded much needed transportation programs that Oregonians rely on. This bill is an attempt to subvert the people's ability to properly weigh in on the process, barely giving any notice or time to provide testimony on these new changes. It would bring cuts to public transit service that Oregonians rely upon, it would cut back safety improvements that would save lives, and would be a step backwards in Oregon's climate goals to maintain the environment we all care for and rely upon. All of these are unacceptable and I ask that this bill be voted down and the transportation package that was passed out of committee be brought to the floor instead.
