Measure, Appointment or Topic: HB3402

Withholding funding from Portland will cause immediate and severe program cuts to an already weakened and stretched group who are working diligently to maintain our transportation infrastructure. This will cost us more in the long run by putting off needed repair and making eventual maintenance MUCH more expensive. our 'right of way' is what binds us together! we need to at least be able to hold it together through this hard time, not make it more difficult to dig out later. not to mention the dozens of lives upended by a sudden layoff! i strongly oppose this bill without expected funding for cities.
